

1860 LONDON TRADES COUNCIL

GLATUC 2010

GLATUC

150th

2010 is the 150th anniversary of the London Trades Council founded in 1860 after the great 1859 building stoppage. This led on to the Matchgirls, the gasworkers and the dockers in the 1880s. Now the Greater London Association of Trade Union Councils (GLATUC), it will celebrate this important milestone in trade union history by concentrating on building solidarity TODAY—how the trades council network can help build the fight against the cuts.
